Dear Hazel:

Subject: Engineering Change Order No. 1 - Revision

Enclosed are our revised calculations of cost incorporating the recently agreed upon labor rates for the addition of sixteen (16) Navigation Panel Retrofit Kits and subsequent installation.

We contemplate the origination of the Kits under FL-4004 Contract (Spares) and the installation under FL-4003(O&R).

As the only change is in the price of the Kits (Item 11 of ECP form), we are not submitting again the Engineering Change Proposal.

Very truly yours,
